## **TECHNOLOGY NOTES**

Welcome to the first of many technology notes coming to Chapel. In this article, we will be highlighting Chapel's website <http://chapelofthecrosslutheran.org/>. This is now viewable on any device from a smartphone to a tablet to a computer. If you are not feeling well or are just out of town, worshipping with us is only a click away. Every worship service is streamed on our website. The count down clock tells you when the next service will be live. An easy shortcut to remember is <http://chapelofthecrosslutheran.org/online>. This will take you directly to our online service. If you overslept or would like to view a previous worship service, you can always click on the WEBArchive link on the home page. It will take you to our archive of prior services. Now, can you guess how many continents visit our website on a monthly basis? If you guessed 6, you would be correct. If we can only get someone from Antarctica to access our site... Other than the U.S., can you guess the top three countries? China is second, with Germany and Russia coming in a distant 3rd and 4th respectively. If you would like to see other technology related information, please drop me a note: To: Brad Biggers, in the folders outside the office.
